Children require Fundamental Movement Skills (FMS) to develop the complex skills and strategies required to competently participate in different games, sports and recreational activities. This one day practical workshop is designed to provide primary school educators with skills to teach basic FMS and game play concepts and strategies.

Attending this one day event will help you to:
- Sequence assess and teach critical fundamental movement skills within a game and/or sport theme context
- Examine how you can link motor skills and game concepts to develop tactical and strategic thinkers.
- Understand the different game categories and how to structure a theme based curriculum around game concepts and strategies
- Confidence and understanding of teaching FMS and game concept through practical involvement and application in a range of activities.

**Give your students the chance to develop their physical potential, register for our one day workshop today!**

**Dr Bernie Holland, ACHPER Victoria**

*Health and Physical Education must develop knowledge and skills to be active and healthy for life*

Deeply committed to quality HPE, Dr Holland has more than 35 years supporting Health and Physical Education. He has worked extensively across the tertiary, school and government sectors consulting in the development and implementation of HPE curriculum. Bernie co-authored Victorian Fundamental Motor Skills Manual, the foundation for many FMS Studies.
